# SEA WATCH GOURMET CHOPPED SEA CLAMS

Sea Watch **Gourmet Chopped Sea Clams** are packed from only quality shell stock (Atlantic Surf Clams). Only 5% of the clams we produce are eligible for this product.

Unlike the industry standard, this product includes the tongue or "premium" portion of the clam. This meat is valued at a premium, but has two distinct advantages over the body meat which is used exclusively for other packs. This premium meat has a firmer texture and stands up better to the canning process. This means that the product has better identity; "bigger pieces." (It is possible to use less product and receive the same perceived value.)

The second and most important selling point is the fresh sweet concentrated broth that the product is packed in. This juice is extracted from the clams during the process. It is then concentrated, standardized, and used to top off each can. We think that the flavor is the best part! Compare the sweet flavor that this broth adds to your recipe to that of a clam base. The clam base can now be totally eliminated.
