SEA WATCH CHOPPED SEA CLAMS & SEA CLAM JUICE

Sea Watch **Chopped Sea Clams** are a product made from the Atlantic Surf Clam (*Spisula solidissima*) harvested in US federally regulated waters. The harvest area is called the "Mid-Atlantic Bight" which is roughly a 40,000 square mile area off the coast of Virginia to Massachusetts between 3 miles and 200 miles offshore. The Sea Clam has long been considered the prize of the sea because of its naturally tender texture and sweet flavor. The Atlantic Surf Clam is also a terrific low fat and low cholesterol source of protein.

The Atlantic Surf fishery has been managed by the National Marine Fisheries Services since 1976. This fishery is considered by most in the marine science field as one of the best managed fisheries in the world. Under the Magnuson Stevens Act, sustainability is mandated by law.

Sweet Flavor	Ready to use
Tender Texture	Profitable Protein
High in Protein	High in Iron and Selenium
Versatile	Low in Fat and Cholesterol

Sea Watch **Sea Clam Juice** is derived from the processing of fresh clams. The liquid which is released during the processing is cooked, standardized and canned to provide a tremendous shelf stable flavor source for any seafood sauce, soup, chowder or sauté application. Sea Clam Juice adds the natural flavor of the Sea Clam to any recipe.

MSC Fishery Certification: F-SCS-0098

Sea Watch MSC Chain of Custody Certification Number: MSC-C-55796
